

# The Enrichment Center

## "Dimes for Disaster a HUGE success"

All students participated in the "Dimes for Disaster" old raised \$225.00 for the American Red Cross Haiti relief efforts. Each child collected their "Dimes for Disaster" from friends, family members, and some even by working extra chores. The donation was matched by Unlimited Construction, Inc. for Radford, Virginia, bringing the grand total of their efforts to \$550.00. The administration of the center inspired the children to give by offering a free birthday party at Adventure World Skate & Fun Center for the child that raised the most. The grand prize winner of the contest

was Myles Gittens, age 5 and runner up was David Lemon, age 10. Only \$1.00 separated the two contestants so Adventure World is granting both of them a free birthday party. A check was presented to the director of the local Red Cross Chapter, Paula Downs.

**Myles Gittens,  
1st Place Winner!**

## From the Director:

Can you believe it's time for spring. As we look forward to Spring, I would like to remind everyone that we must be outside for at least one hour a day. This means that as long as it is 20 degrees we must take the children outside. Please bring your child a coat/sweater/sweatshirt because we

will be going outside.

Please be aware that updates for children files are being processed daily. Please make updates on the records and return them as soon as possible.

Thanks, Ms. Sarah

## The Three's Spot

In our three's class we have been studying the letters "T, U, V, and W" throughout the month of March. We have been on several field trips including the post office, fire station and the Banfield vet clinic. As we start April we will be working on letters "X, Y and Z." As the weather gets warmer we are able to enjoy a lot of playtime outside on our playground; whether it be sidewalk chalk, structured games, or free play. All of our outdoor fun allows the children to get plenty of fresh air and exercise. We are looking forward to more sunshine and warm weather as spring begins!

**Ms. Carla**

## The Four's Time

As the new teacher of the 4's and 5's class, I would like to say thank you for this opportunity to get to know and grow with your children. I have been a preschool teacher for two years and absolutely love working with kids. I recently moved back to this area from Florida. As I have moved in, we have moved the 4's and 5's to their new room also. We have been learning through our daily work and free play to be better "big kid friends" by using our new rules that we created for our classroom. We are really looking forward to spending more time outside in the beautiful sunshine and stretching our muscles. We have a lot planned for us as we go through the next months!

**Ms. Kim**

**FEATURED ART-  
WORK:  
Alexander**

## The Schooler's Place

As the weather is gradually changing, so are the activities that the schoolers will be doing. We will continue to be doing homework help when children arrive of the afternoons as well as numerous other fun and challenging activities. With the weather becoming nicer daily, we will be going

outside more and doing large/small motor skill activities. Physical fitness is becoming a thing of the past and we are trying to encourage children that movement and exercise is very important. There will be days that we will still skate or do laser tag but if the weather is nice we will be

outside. We will continue to challenge your child's mind with science experiments, daily academics, and new physical fitness opportunities daily. We hope that your child will be Challenged enough that they will share with you their daily adventures.

**Ms. Sammie & Ms. April**
